rule used by $\{P2_{\text{split}}, F2, F3'\}$ →

rule not used by it →

first form of (P2), $\text{ch}(E) = N\omega$, met by no E :
 $\dim \text{Ext}^2(E, E) = 2n(2n - 1)$, support in codimension $< n$,
 ev_E factors through $\bigwedge^* P \oplus \bigwedge^* Q$
